And further, that said Commissioners are to assume supervision of all outside dykes on any of the lands within the said dyking district, and to cause the same to be maintained at the cost of the sections, lots, or parts thereof, on which the said dykes are situated, to a height sufficient to prevent overflow from river or tide-water, and to cause to be constructed drains for the drainage of any lands within the said dyking district, as may appear to the said Commissioners necessary, when requested so to do by the owner or owners of a majority in interest of the lands to be benefited, and at the cost of the lands drained, and generally to do all things which may appear to them necessary, under the provisions of the "Drainage, Dyking and Irrigation Act," for the benefit of the land within the above described district.
